Re: Recommendation for Madeline Kopka

To whom it may concern, Giovanni Vitrano Memorial Scholarship Committee:

This letter is written on behalf of the application of Madeline Kopka. I have known Madeline and her family for one year. This letter comes from both my professional and personal experience.

The highest accolade for any individual is to positively influence upon another person's life to such an extent that the person wants to emulate that individual. Madeline is this type of person. As the Head Coach of the Navarre High School Girls' Soccer Team and coach for the Gulf Coast Texans, I have witnessed her growth and personal maturation this past calendar year. Madeline has demonstrated that she is an excellent student, capable and mature enough to handle college level work. Madeline's desire to excel, as a student is evident in the extra time, effort, and research that she has applied towards her classes. This is evidenced by her transcripts and resume. Madeline has routinely volunteered to serve her community by volunteering with the Leon County Commission, the Sewing Seeds Sowing Comfort Ministry and other local events. Madeline is a member of the National Honor Society, a Best and Brightest Scholarship Finalist and President of SAIL High School Student Government.

Madeline is a model student-athlete. She is a four-year varsity soccer player in Tallahassee. Her leadership qualities, dedication, desire to improve, and ability to get along with her peers, has made her a leader on and off the field. Madeline was team captain and Big Bend Player of the Year.

On a personal level, Madeline is a person of outstanding moral character. Madeline has served as an intern and volunteer in Tallahassee under the City Commissioner and Leon County District Three Commissioner. Madeline is a great role model and her interaction with fellow students, teachers, and younger students is always positive. Madeline is polite, outgoing, and her love for life and people is sincere. Madeline is the type of young woman that I hope other children emulate, as they grow older.

There is little doubt in my mind that Madeline has the capacity for the leadership, mental toughness, composure, and the good moral values that are necessary to fully appreciate the opportunity presented at Trinity Washington University. Please do not hesitate to call if I can assist you in any other way.

Sincerely,

Rob Simon
