

2/20/2025

To Whom It May Concern,

I am pleased to write this letter of recommendation for Anna Oldham, an outstanding student I have had the privilege of teaching for the past three years in the Biomedical Sciences Program at Ravenwood High School. Throughout this time, I have come to know her as a dedicated learner and a remarkable individual with qualities that will make her an exemplary candidate for this scholarship.

Anna is an exceptional student who seeks to understand the material deeply rather than simply chasing grades. Her curiosity and passion for learning are evident in her approach to her studies. She consistently goes above and beyond, engaging with complex concepts and seeking clarification when necessary. This intrinsic motivation sets her apart from her peers and demonstrates her commitment to academic excellence.

In addition to her academic prowess, Anna is a natural team player and a leader in the lab. Her ability to collaborate effectively with her classmates fosters a positive learning environment, and her peers often look to her for guidance. She models a strong work ethic and empathy, always willing to assist others and share her knowledge. This combination of leadership and compassion is a rare quality that will serve her well in her future endeavors.

Beyond her academic and leadership skills, Anna is also a dedicated lacrosse player. Balancing her athletic commitments with her studies showcases her time management skills and determination. Her resilience, particularly in light of the personal challenges she has faced, speaks volumes about her character. Losing her father to cancer several years ago has only strengthened her resolve, and I am confident that he would be incredibly proud of the young woman she has become.

Anna has a lifelong dream of working for the FBI. This scholarship would lighten the financial burden of chasing that dream. Her attention to detail, ability to think critically, and knack for making connections among various pieces of information make her an ideal candidate for such a demanding field. She possesses not only the academic abilities required for success but also the personal qualities that will make her an asset to any community. I am excited to see all that she will accomplish in the future.

Sincerely,

*Danielle Drumwright*
