

To Whom it May Concern,

It is my pleasure to recommend Austin DeBolt for your institution. I have gotten the opportunity to work with Austin for the past four years in the classroom, as a student employee, and as an athlete. Throughout this time I have found Austin to be a very dedicated, hard working, and self motivated young man.

Austin's dedication and hard work can be shown throughout his work both in and out of the classroom. Austin is a good student who always goes above and beyond to complete his assignments and receive good grades on his tests and quizzes. He is an exemplary student employee who I often turn to when I need a problem solved, or I need an extra hand. He has taken on many extra responsibilities such as opening, training, and creating supply orders. He will often help out with counting the money for deposits and he is always the first to offer to help during free periods in his schedule. He is often talked about by the faculty and staff as one of my top employees. Austin is a student that will truly be missed by not only his peers but by the faculty and staff here at Newark Valley as well.

Austin is also one of the most self motivated students I have had the pleasure of working with. In athletics and in school, he sets high goals for himself. I have had the pleasure of not only watching him exceed those goals, but also watch him create new ones. Every challenge he faces or goal that he sets, he perseveres and works hard to achieve it. He has truly been an inspiration for not only me, but his peers as well. It is hard to not recognize everything that he has been able to accomplish in a short four years. He always has a new challenge for himself because he is always trying to be the best student, athlete, and person that he can be.

In essence, I would like to strongly reiterate my recommendation of Austin for the HVAC program. He is a wonderful young man who has worked hard to achieve many great things. He is well deserving of a place at any institution.

Best Regards,

Katia D'Arcy
