To Whom It May Concern,

It is with great pride that I write this letter on behalf of Austin Drumm, a student in the Cybersecurity pathway at the Northside School of Innovation, Technology, and Entrepreneurship (NSITE). As the principal of this application-based magnet program, I have had the distinct pleasure of witnessing Austin's growth into an exceptional scholar, athlete, and emerging leader in the field of cybersecurity.

Austin is currently ranked in the top of his class, with a rigorous academic course load that includes Advanced Placement, Pre-Calculus, and Dual Credit coursework. His passion for cybersecurity is evident not only in his coursework but also in his active involvement with CyberPatriots and as a mentor for middle school students interested in cyber careers. He is a rare blend of technical aptitude and collaborative spirit. His academic achievements alone are impressive, but Austin's ability to interact on a congenial and professional level with teachers, administrators, and the larger community further separates him from his peers.

Beyond the classroom, Austin demonstrates outstanding leadership and character. As captain of the varsity golf team and a multi-year Academic All-District honoree, he balances the demands of athletics and academics with discipline and integrity. His work with the NSITE Recruitment Team and volunteer initiatives—including the San Antonio Food Bank and athletic mentoring programs—reflects a deep commitment to service and community.

In all respects, Austin exemplifies the values and vision of our school. He is driven, mature, and deeply engaged in both his academic and extracurricular pursuits. Austin is a model, stand-out student that adds value to the NSITE program. I have no doubt that he will continue to add value and excel in any academic environment or leadership role he pursues.

Should you have any questions, please feel free to contact me at the information above.

Sincerely,

Brad Hebert
Principal, NSITE Magnet School
