

Ethan Whitton

### About Me

My name is Ethan Whitton. I am from Las Vegas Nevada and have been skateboarding my whole life. I started school a few years ago in 2022 and have been pushing for my masters degree since. Within that time I have had two kids, got married, and been working full time to support my family. Currently my family and I live in a two bedroom apartment and are low income. I am the only one working since my wife needs to stay at home to watch the kids and we scrape by pay check to pay check. This scholarship would relieve a lot of stress and help my family and I greatly as well as make it easier for me to finish school.
