To Whom It May Concern,

I am writing on behalf of Haritha Sadhish Kumar, a senior at Clark High School and one of my AP Computer Science A students. I have known Haritha for three years; she made an excellent impression during that time. Haritha is a hardworking, thoughtful, and motivated young person.

Haritha is dedicated to her academics. Not only is she exceptionally bright, but she is also very hardworking and has excellent reasoning and problem-solving skills. She consistently completes her work in a timely manner and demonstrates a commitment to excellence. Haritha strives to gain a complete understanding of all concepts through practice and repetition.

In Computer Science, she is willing to work outside of class to understand all programming concepts and is eager to tackle extra programming challenges to improve her skills. As a Robotics team member, she has proven to be incredibly resourceful and analytical, applying her computer science knowledge to real-world engineering challenges.

One aspect of Haritha’s personality that impresses me most is her proactive willingness to help others. She is a kind student who has a profoundly positive influence on her peers. She is always willing to help her classmates think through problems they encounter with their code and is excellent at assisting other students in debugging their programs. She not only helps others solve their problems, but she also helps them gain a better understanding of the concepts.

Haritha extends this selfless quality beyond the classroom as an officer for the South Asian Student Association (SASA) and through numerous volunteer hours for various organizations, including the Computer Science Honor Society. These roles speak to her strong leadership potential and her commitment to serving her community.

I do not doubt that Haritha will work to achieve the necessary level of understanding required to succeed in all that she pursues. She is committed to excellence and will strive to leave a positive impression.

It is with pleasure that I recommend Haritha Sadhish Kumar for your consideration as an accomplished, dedicated student, leader, and community servant.

Sincerely,

Danielle Alonso Mills
