Concept Statement

Preserving the rich history and heritage of the Eastside neighborhood—the last remaining historic community that borders downtown Jacksonville—this design seeks to embody the neighborhood’s legacy as a harbinger of change. The Eastside Community Center will be reimagined to honor its storied past while creating a space that records modern history and fosters renewal.

history is made, breathing new life into this historic enclave and empowering its residents to chart their future with pride and purpose.

This interior design will weave elements of resilience, culture, and contemporary functionality to serve as both a tribute to the neighborhood’s roots and a foundation for future generations. Through thoughtful design, the community center will become a place where heritage is celebrated and modern

Design Drivers

Resilience

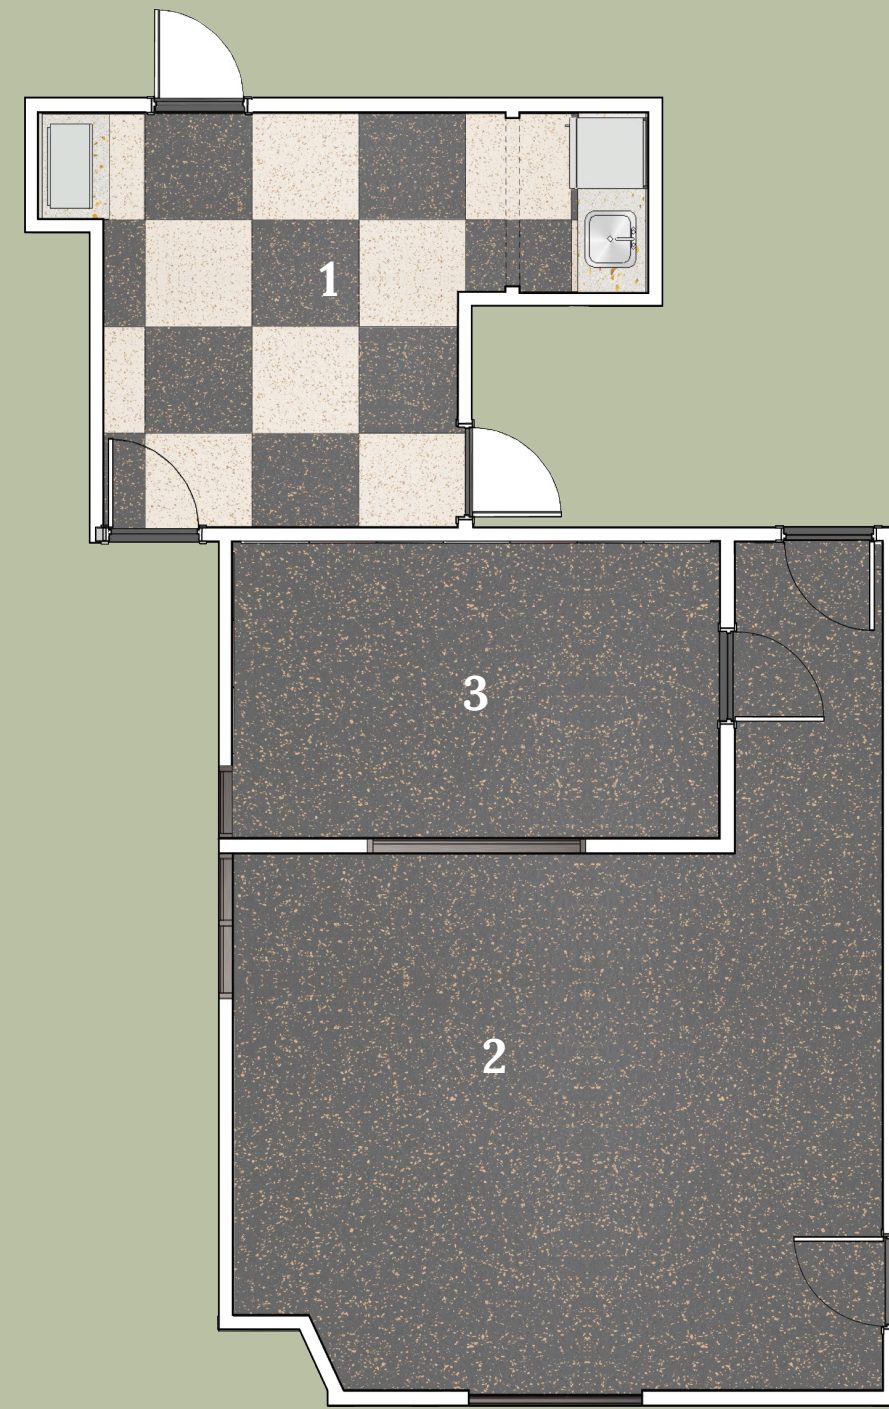

A vibrant space that celebrates the heritage and resilience of the Gullah Geechee culture and the broader African American community

Community

The redesign will create an inviting, multi-functional environment that preserves history, inspires education, and fosters communal growth as a harbinger of change

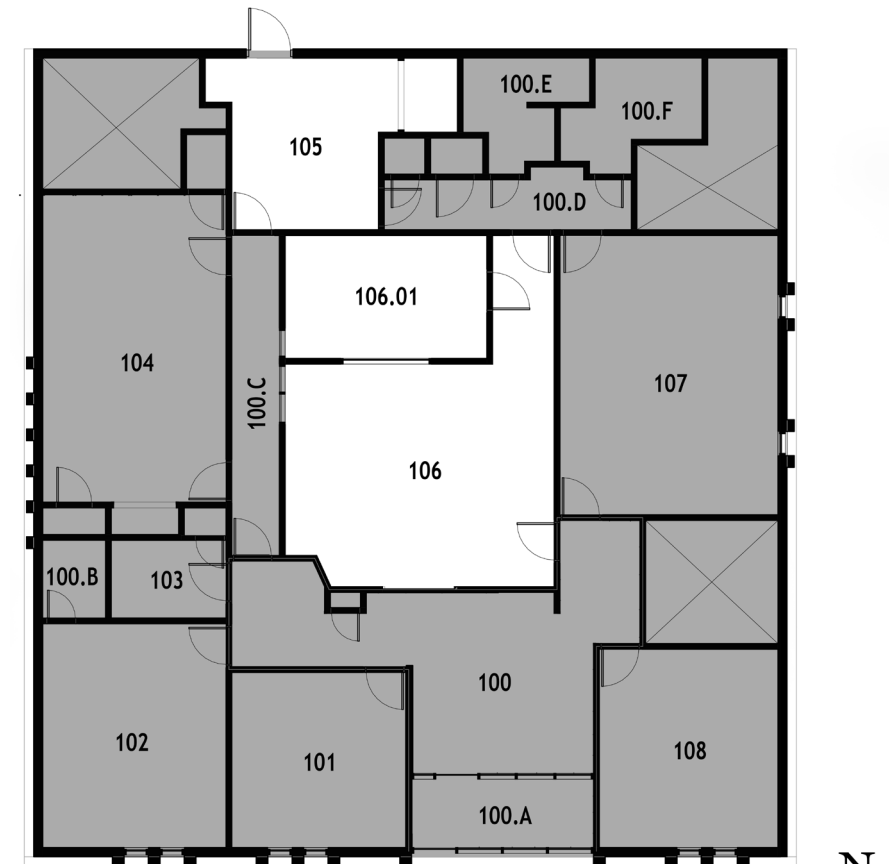

Growth

A transformation that will promote unity and growth
