

To whom it may concern,

I have known and instructed Joelle Johnson for the last three years. In that time she has demonstrated and embodied many traits that will serve her in her pursuit of the highest possible levels in golf.

She is a highly determined and hard worker at the game. She will take a concept or idea and

work at it until she owns it. She listens very carefully and asks many thoughtful and insightful

questions to assuage any doubts, and then gets to work.

She is a delight to be around. She has nuanced and well researched ideas on subjects other

than golf, as well as concepts on the periphery of golf. She has a strong family structure as she

is respectful yet quietly confident in her own abilities.

Her game is very well rounded. She is one of the straightest drivers of the ball I've seen, hits her

irons with great accuracy and distance control, and has terrific touch and tenacity on and around

the greens. She is unflinching and handles pressure very well.

It is with the utmost confidence that I recommend and endorse Joelle. She has shown unequivocally that she can handle much of what life will throw at her, and come out the other

side with success, a smile and gratitude and appreciation for the opportunity.

Sincerely,

Damon Lucas
