

To be loved

Verse

Tip toe
Avoiding the lecture
Save face, you don't wanna see

I know
You probably know better
I listen and shift into what you want from
me

Chorus

To be loved is to be known
To be known and still be loved is
what I want
Y'Say you love, but do you know
Love in parts is not enough
To be loved
To be loved

Verse

Eyes closed
Confess at the altar
Praying to take it away from me

Expose
My collection of falters
Criticize and demonizing what comes
naturally

Chorus

To be loved is to be known
To be known and still be loved
Say you love, but do you know
Love in parts is not enough

Bridge

I feel sick to my stomach
So I kneel, begging a god

Would you please heal
The burden I know so well

I feel sick to my stomach
So I kneel, begging a god
Would you please heal
The burden I know so well
I feel sick to my stomach
So I kneel, begging a god
Would you please heal
The burden I know so well

I feel sick to my stomach
So I kneel, begging a god
Would you please heal
The burden I know so well

Chorus

To be loved is to be known
To be known and still be loved
Say you love, but do you know
Love in parts is not enough

To be loved
To be loved
