

Travis Ward – Letter of Reference and/or Recommendation

11/2/2025

To whom this may be of interest or concern:

My name is Patrick Driver. I am the Scoutmaster for Troop 121 of Santa Rosa, California. Travis Ward joined our Troop a little over 2 years ago. And I have known him since then. Travis joined the Troop to learn new skills, take on challenges, and expand his social environment.

During that time, he jumped in very eagerly with enthusiasm. There wasn't much he didn't take on. Although he already possesses many outdoor related skills, he was very open to learn other possibilities that being in the outdoor had to offer. This will include working in a Patrol Structure, utilizing and being part of a leadership structure, a greater appreciation outdoor conservation practices, all while moving outside his comfort zone of physical endurance.

As an individual, Travis has acquired self-confidence, improved communication skills, and the value of teamwork. Yet he also learned and built his leadership qualities, through positions held in our Troop, and executing an Eagle Project where he was tasked to Plan and Execute.

My overall opinion of Travis is that he is a person that will see any task to the end, that he is reliable, a young man of solid character, and serve well with any organization that he is associated with.
